

Dear Shareholders, Consumers, and Followers

We have accomplished the impossible and we are ready to start a great 2020.

Many are wondering why has taken so long. But we are building a new lifestyle for consumers and we are working with farmers to grow Sacha Inchi with good agriculture practices.

We have developed not only one product but five that will change how people eat and make rainforest treat the make have a product for everyone that wants to have a healthy lifestyle:

- Rainforest treat daily pack (5 seeds or 5 grams of Sacha Inchi seeds) best seller
- Rainforest treat powder (Sacha Inchi powder)
- Rainforest treat infusion (Sacha Inchi infusion)
- Rainforest Milk (Sacha Inchi Milk)
- Rainforest pet food (Sacha Inchi pet food)

Two of these products have Invima license and we are selling them now.

With these products, we are entering a \$ 107 Billion dollar industry for 2020.

Why can we compete in the ethnic industry?

We have Halal certification and we are working to get our Kosher certification. Sacha Inchi complies with all the requirements for Halal and Kosher.

Why can we compete in the non-Lactose industry?

We are the only company in the world that is producing Sacha Inchi milk. The only milk with Omega 3,6,9 and a complete protein. No other milk has these qualities.

Why can we compete in the pet food industry?

We are the only company that can provide a healthy source of Omega 3,6,9 and more protein for your pet than any other pet food.

We can also compete in the Non-GMO, Gluten-free, Organic and other industries

Our goal is to penetrate 1 % to 3 % of these markets every year for the next 20 years.

How we will do this?

- We have our first order of product for Auralac to make milk. They need at least 30 tons of Sacha Inchi every month minimum. They sell Almond Milk to D1 <https://www.auralac.com/> We have sent our products to Nestle Colombia and we are waiting to have our first visit of their team after the 13 of January to discuss how we can start selling our products and also create new products for Nestle Colombia and possibly other branches of Nestle worldwide. <https://www.nestle.com.co/>
- On January 2 we are presenting our product to Promotora Social the company that sells to EXITO <https://www.pcsocial.org/clientes>
- Nutresa is working on is the first order for Evok <https://www.evok.com.co/>
- Natural Light will sell our product in 14 of the 170 stores they have in Colombia <https://www.naturallight.com.co/nuestras-tiendas/>

Our major customers will be for raw material to make other products. We will continue working to promote our brand Rainforest treats in the USA and worldwide. So stay tuned to see when and where you can buy our products and how you can buy a product that has Sacha Inchi in it.

GEGI the sister company of QEDN has been able to secure a new agreement with la Pamichala the gold mine that has a 43-101 and it is in production at the moment. We will update everybody in January on this new agreement. We had to put this project on hold because the owner died in 2015 and we had to wait to get the title of the property into the name of hers of the mine. This year the mine change title and now we can start working with the new heirs to continue the project.

Thank you for your support
